Total Apps Tracked (92)

This is the total number of apps presently tracked by the Emory Mobile App Distribution process and includes apps bound for internal and public distribution as well as apps in the concept stage and recently retired apps. Note that this is one less than the sum of the categories because one of the apps appears on both the Internally Distributed and Under Review for Public Distribution lists.

In Concept, Cost Estimation, Design, or Development (10)

Note: Not all apps in design, cost estimation, and development are known by Emory IT. Some apps only come to the attention of central IT as part of the review and distribution process.

1. Surgical Safety Checklist (starting use case documentation—no analysis, design, or cost materials available yet)
2. Emory Healthcare Provider App (use cases documented, preparing cost estimate)
3. Emory Login Demo (in development)
4. Pediatric Blood Pressure (concept and cost estimation complete, no funding yet)
5. Catatonia App (concept and cost estimation complete, no funding yet)
6. Dermatology Patient App
7. (Georgia Tech) Smart medication list app
8. Transfusion Reaction Classifier Clinician App
9. DeepAISE App
10. SERVE

Under Review for Public Distribution (7)

1. PECSS (Android)
2. Georgia TB Reference Guide (iOS & Android)
3. HomeTown Cancer Predisposition (iOS & Android)

Publicly Distributed Apps - Reviewed and Approved (25)

Note: All publicly distributed Emory apps are also distributed internally at various points in their lifecycle. Publicly distributed production apps in public marketplaces are ultimately listed at links in the internal Emory Mobile App Catalog. These listings of public and internal apps are distinct so as to communicate clearly which apps are bound for public and internal users. Click on the marketplace name for a link to each app’s official listing in the marketplace.

1. Emory AWAKE (Google Play & Apple App Store)
2. Surgical Anatomy of the Liver (Google Play & Apple App Store)
3. Emory Liver Transplant (Google Play & Apple App Store)
4. Anatomy of the Male Pelvis (Google Play & Apple App Store)
5. ReliefLink (Apple App Store)

17. iPARTICIP8 / SMART (Android & iOS)
18. eP (aka. ePrEP) (Google Play & Apple App Store)
19. HealthMindr (Android & iOS)
20. Atlanta History Center (iOS & Google Play)
21. Know@Home (iOS & Google Play)
22. Transpire (iOS & Android)
23. SMARTDM2 (Emory App Catalog for iOS & Android)
Unapproved, Publicly Distributed Apps (1)

These apps have been found in public marketplaces and bear prominent references to Emory University or Emory Healthcare. These may be apps that pre-date Emory’s 2014 review policies or apps that have been published without proper review. All of these apps should be reviewed, distributed by Emory, and migrated to the Publicly Distributed Apps category or removed from public marketplaces.

For more details see the Unreviewed, Unapproved, Publicly Distributed Apps page

Retired and Unpublished Apps (39)

These apps are not on the marketplaces. This list includes apps that started development but were never published, apps that had been distributed on the internal Apperian catalog, and apps that were published and since retired.

1. Emory Bubble (Google Play & Apple App Store, Campus Bubble App Store Account)
